Solar Wall Light

**MUSE**

## MUSE | Solar Wall Light

MUSE solar wall light offers a futuristic design with a five-year warranty for public space outdoor lighting applications where the benefits of IK10 vandal resistance are required. LifePO4 battery combined with an intelligent lighting program provides 100% power up to 280 lm for 4 hours before changing to 30% power of full production to 100% when the PIR sensor is triggered. It ensures up to four nights of lighting on a single full charge of the battery. The mission of MUSE is to comply with the requirement of the Dark Sky Association by limiting the upward light waste ratio (UWLR) to <1%. Limiting upward light reduces environmental light pollution and protects the view of our night sky for all.

We also offer the MUSE Solar wall light in a wildlife-friendly version retaining all the features of the original product. Wildlife-Friendly lighting is specifically designed to minimize the ecological impact on animals and insects.

## Working Mode

- 36 hours backup with fully charged battery
- LED power is automatically adjusted to save energy.
- ON - OFF  
Dusk to Dawn automatically ON/OFF
- LiFePO4 battery inside more than 10 years lifetime
- Equipped PIR motion sensor to save energy
- High luminous flux output up to 280lm performance

## Product Size

Model	AI-GL275R/W
Lighting performance	1.5W >280lm
Solar panel	5V 6.2W
Product size	323*275*195mm
CCT	2200K~6000K
LiFePO4 battery	38.4WH 3.2V
Charge & discharge time	5 & >24 hours
Sensor type	PIR motion sensor
Fixture color	Black /Grey
Certificates	CE IP65 IK10
Waranty	3 years
