FRANCE

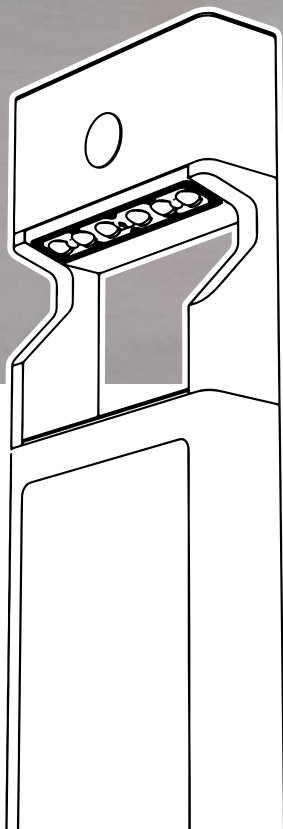

Designed for Nature
Engineered for Excellence

The WOODBECKER Series, designed by Mr. Jean Charles MATHIEU of LED Distribution France, combines European lighting aesthetics with advanced solar technology. Inspired by the natural beauty of wood, WOODBECKER integrates seamlessly into modern landscapes while delivering exceptional lighting performance. Designed in accordance with IDA principles, it minimizes light pollution and directs light precisely where it is needed.

Powered by clean solar energy and crafted with premium materials, WOODBECKER is the ideal solution for parks, pathways, residential communities, resorts, campuses, and other high-end outdoor spaces. More than a lighting fixture, WOODBECKER embodies the harmony of nature, professional lighting, and sustainable design.

Woodpecker LINE

Solar Architectural Pathway Light

WOODPECKER LINE — The elegance of simplicity. With its slender vertical silhouette and pure geometric form, WOODPECKER LINE transforms sunlight into a gentle glow for modern landscapes. Perfect for pathways and garden borders, it defines minimalism in light.

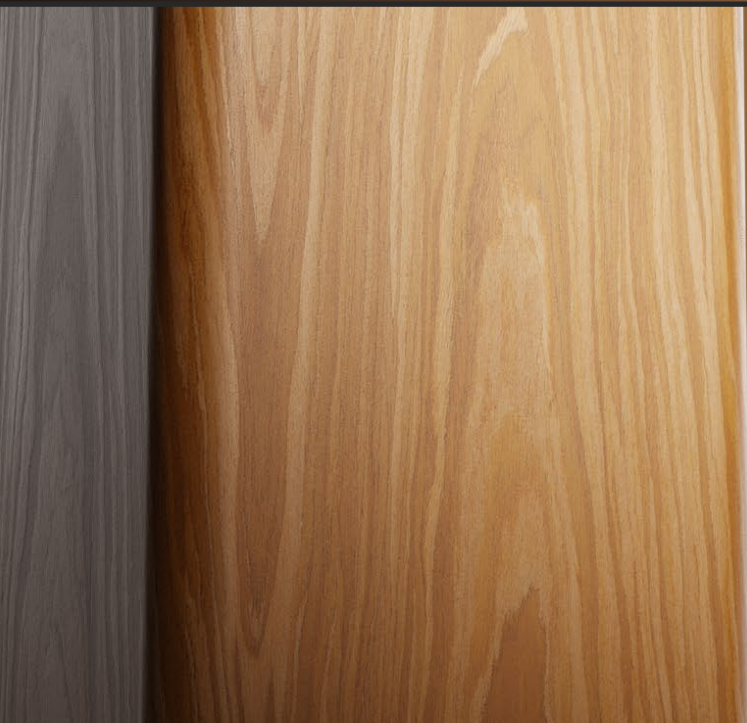

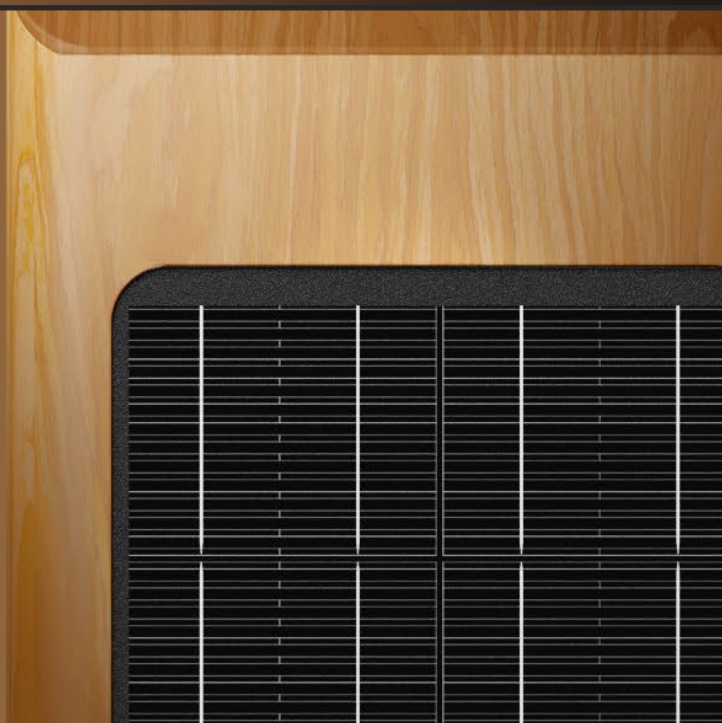

High-brightness LED 200lm/W

Deliver bright illumination with low power consumption and long lifespan.

23.5% Efficiency Vertical Solar Panels

Capture sunlight from multiple angles for improved energy generation.

Anticorrosion Wood Bionic Texture

Imitate natural timber texture to achieve harmonious integration with surrounding landscapes.

Microwave Motion Sensor

Detects movement to automatically adjust light brightness, saving energy when no one is around.

Long Life LiFePO₄ Battery

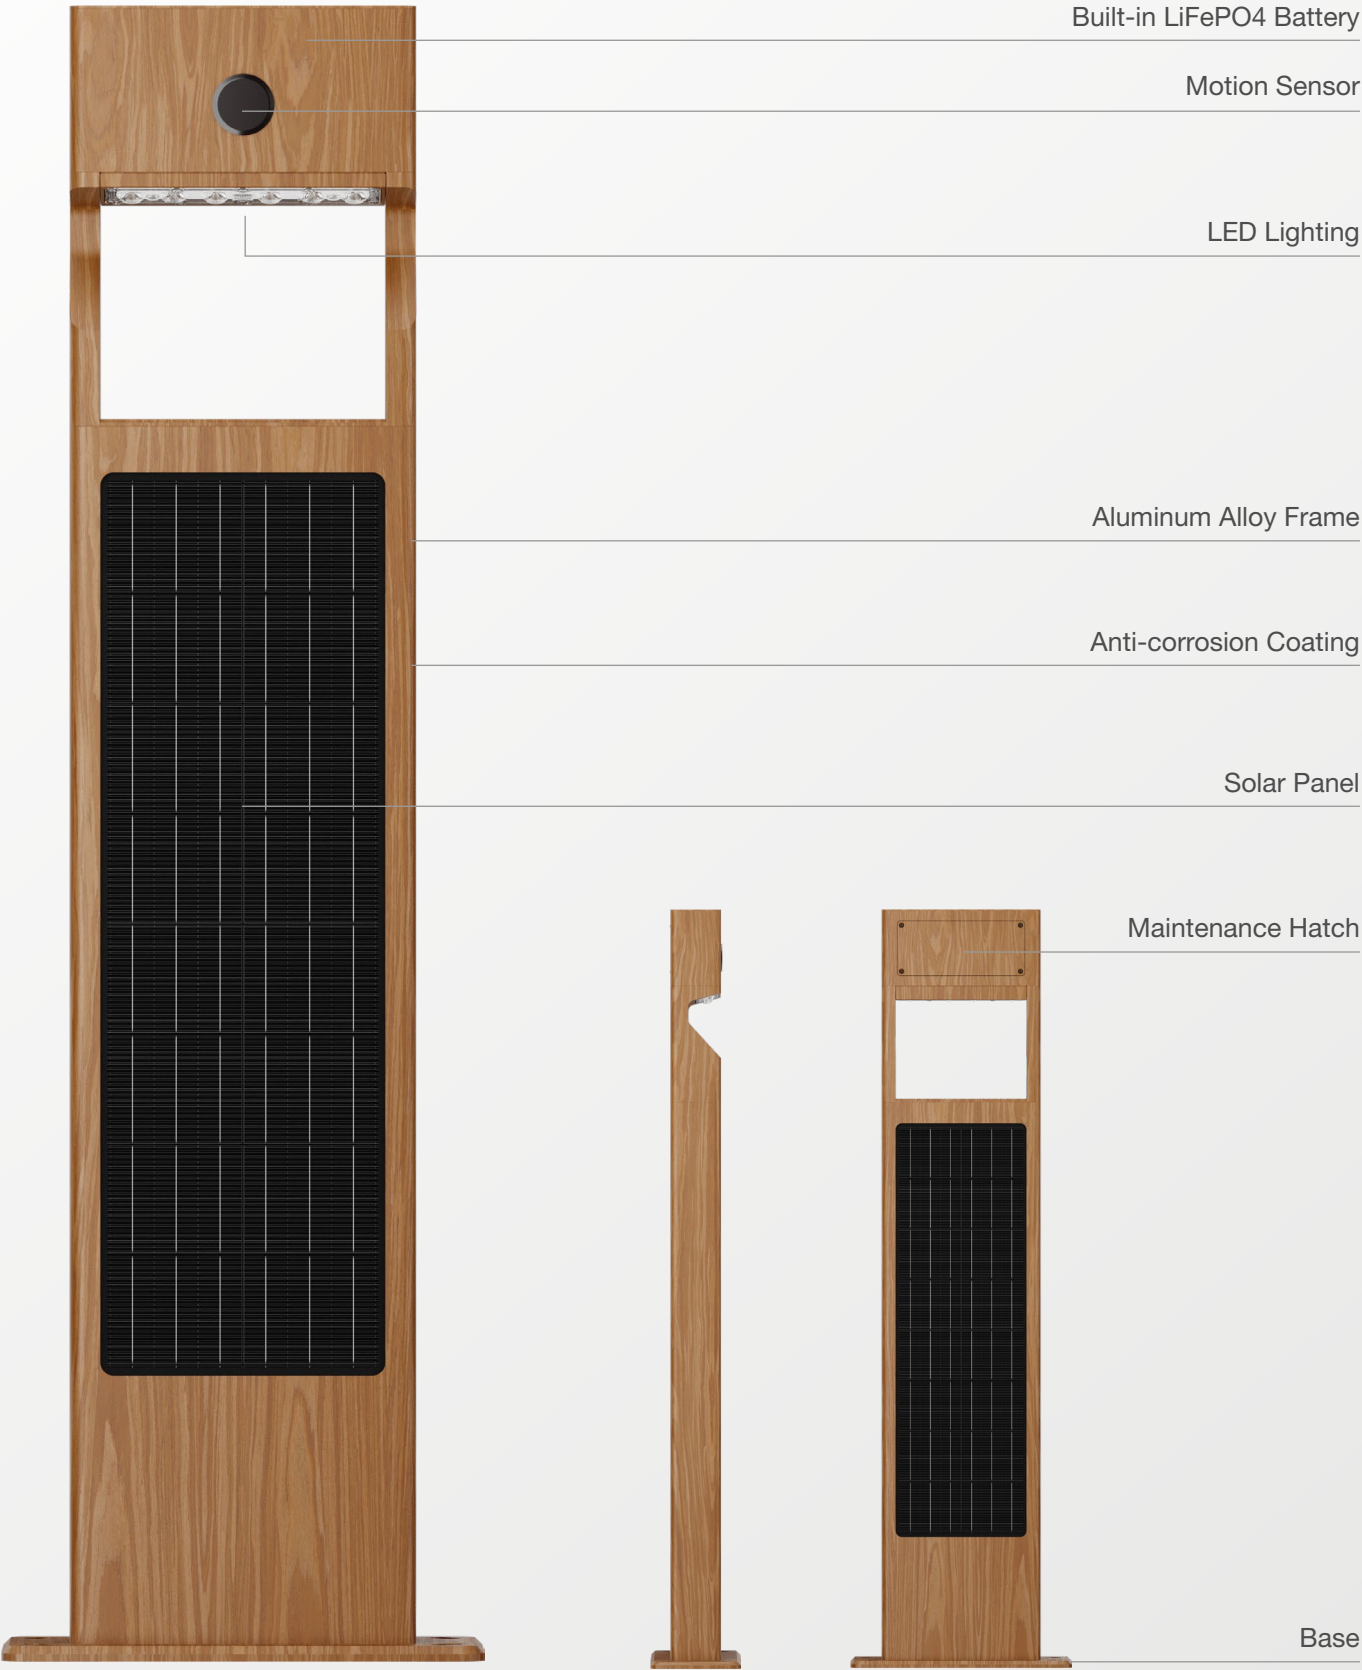

Equipped with a long-life LiFePO₄ battery for efficient energy storage and reliable long-term operation.

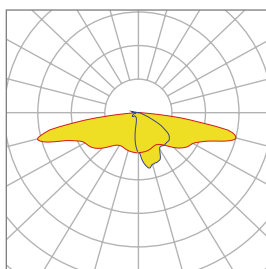

Multiple Modes Remote Control

Multiple built-in programs allow flexible selection of diverse lighting modes and brightness adjustment.

COMPONENTS

LINE 180-1

Model	LINE 180-1
Dimension	230*75*1100mm
Max LED Power	8W
Luminous Flux	1,600lm
A.o.o	300~600lm
LED Chips	SMD3030 24 nos
LED Lifetime	100,000H
CRI	Ra ≥70
CCT	2200K / 3000K / 4000K / 6000K
Solar Panel	42Wp MONO
Cell Efficiency	23.5%
Lifetime	>20 years
Nominal Capacity	3.2V 24AH
Lifetime	4,000 cycles D.O.D 80%
IP&IK Protection	IP65 IK08
Material	Aluminum Alloy
Color	wood / Black / Customized
Sensor Type	Microwave
Warranty	5 Years

A.o.o stands for adaptive operating output.

Regular Finish Colors

Black Walnut
Woodland

Black
RAL 9005

Customizable Finish Colors

Grey
RAL 7046

White
RAL 9003

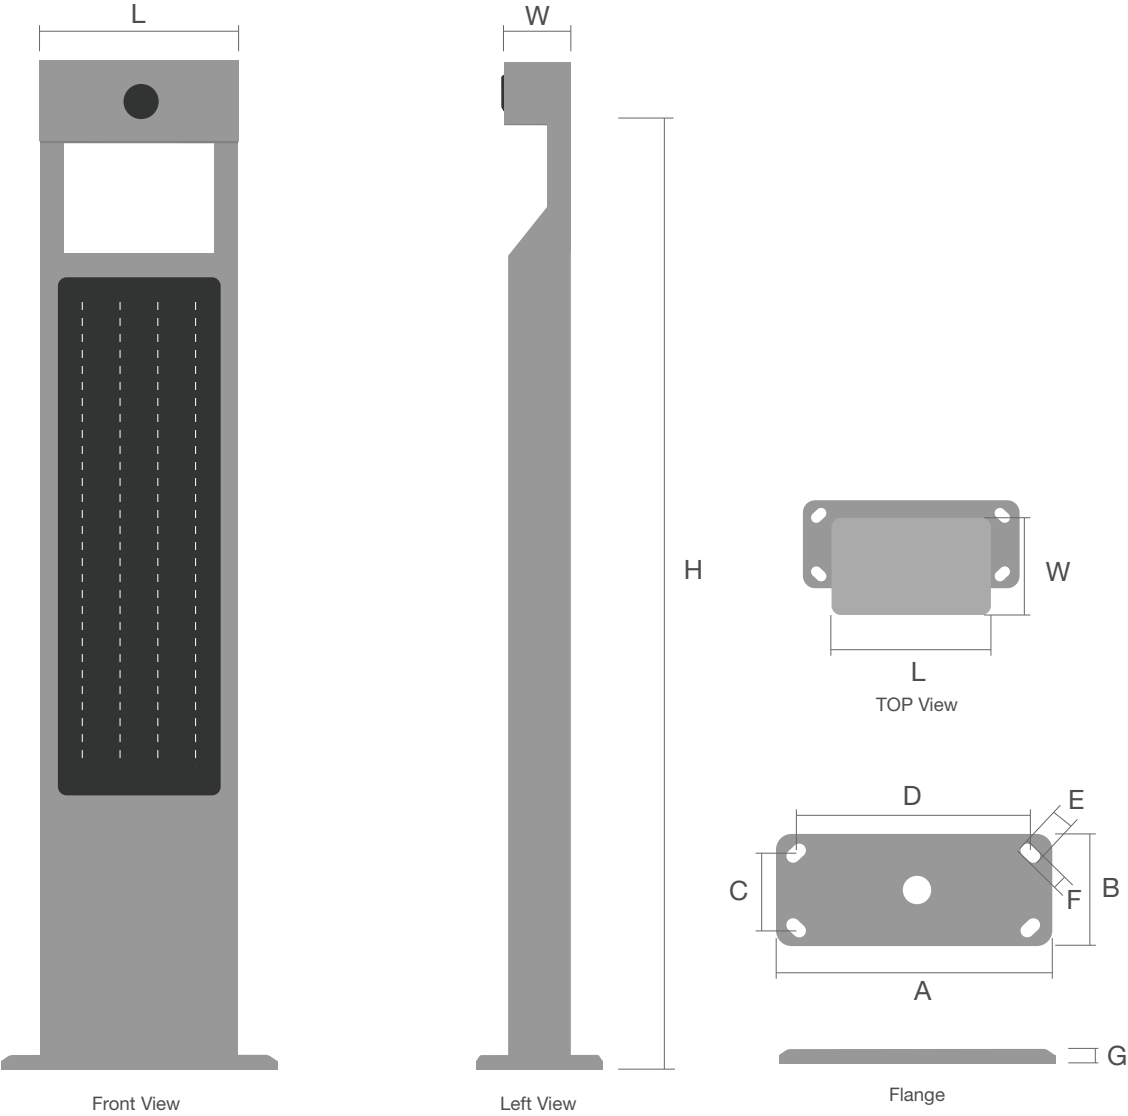

Oak
Woodland

Pine
Woodland

DIMENSIONS

Dimensions (Unit : mm)

Model name	L (length)	W (width)	H (height)
LINE-1	230	75	1100

Flange Dimensions (Unit : mm)

Model name	A (width)	B (length)	C (hole spacing)	D (hole spacing)	E (hole width)	F (hole length)	G (thickness)
LINE-1	320	130	80	270	24	14	10

Woodpecker Series

AUROSAS
Excellence of Sustainable Energy

LINE 180

A slim architectural profile with dual-sided solar harvesting.

TRI 180

A sculptural triangular form designed for multi-angle solar exposure.

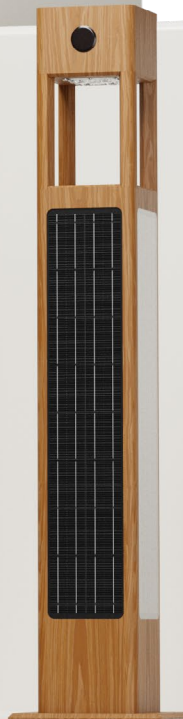

CUBE 180

A bold four-sided form combining solar performance with architectural character.

CUBE 360

A four-sided design delivering complete solar exposure and all-around illumination.
